

# 4th Annual Musician's Community Swap Meet

**Clean out your closet —  
take home some cash! OR —**

**Bring a little cash and fill up your closet!**

Now in The Market on State (Old University Mall) on E. State St.

**Sat. Mar. 12 11am-5pm**

This will be an opportunity to sell, swap, trade, or just show off anything musical. Instruments, amplifiers, sound systems, CD's, records, tapes, or ANYTHING you'd like to sell or swap that's music-related. While you're there, you'll have the opportunity to visit with other local musicians, look for a new band member (or a new band), show off your latest CD, and maybe even join in an acoustic jam session during the event.

Each individual (who has registered for a table) will be assigned an area to display their sale items. Depending on the weather, and your preferences, this area might be inside the building or on the walk around the mall. A "community" outlet will be provided for general usage to test out equipment being considered for purchase.

For those in Athens without transportation, the Union Street bus will bring you right to the store. .

Items featured at last year's swap meet included::

- \* yamaha drum kit
  - \* drum parts
  - \* misc percussion parts
  - \* microphones
